- Our new website will be up and running soon!

Training Center Grand Opening

We are always looking for ways we can improve the quality of our work. Our new Training Center is another way we are trying to achieve this.

The Training Center was designed with the customer in mind. Our technicians are fully certified to perform water damage restoration; but, to fully gain the necessary experience, we put our restoration technicians through intense training. During training, the Center is

flooded, giving the technicians the opportunity to perform structural drying, with a hands on approach.

The Center also serves to train our technicians in many other necessary procedures, making us experts in our field.

Happy holidays from our family to yours!

We are approaching the holiday season. This is the time of year when things can get stressful, especially now that times are tough. Even though gifts are nice, sometimes we get caught up in the gift giving.

We want to remind you of the spirit of Christmas. Christmas is still Christmas even if we don't have expensive gifts.

Getting together and spending time with friends and family, and all who are important to you, is what really matters. Stay safe traveling for the holidays.

Everyone at CIOCCA Cleaning & Restoration would like to wish you a Merry Christmas and a Happy New Year!

"Christmas began in the heart of God. It is complete only when it reaches the heart of a man."
