Fire Safety during Drought Conditions

The majority of Indiana is currently experiencing drought conditions. There is an increased risk of fire during drought or excessive heat conditions, including house fires. It is extremely important to take steps each day to prevent fires during these extreme conditions. The following are a few tips to keep in mind:

- Never leave barbeque grills unattended. When barbecuing, place your grill on concrete instead of the grass. If using charcoal or wood, make sure that the fire has been extinguished by soaking it with a garden hose before disposing of the coals. Remember that there is currently a burn ban in several counties and no uncovered flame or pit is allowed.
- Dispose of cigarette butts in an appropriate container. Flipping them from the window of your car is never a good idea and can be devastating in times of drought and high fire risk.
- Unpermitted igniting of fireworks
- Teach children safe fire behaviors and do not allow them access to lighters or matches.
- Park vehicles so that the exhaust system does not come in contact with dry grass, leaves, or weeds.
- Notify the electric power company when dead trees or overhanging limbs endanger the electric wires. The wires may touch each other or the ground causing sparks that start fires.
- Do not attempt to burn, any wind or sparks can cause fires to spread quickly and are difficult to stop.

Have a Dirty Rug that Needs Cleaned?

Rugs tend to take a lot of abuse and get a lot of wear; especially ones that are in high traffic areas, such as a Great Room or Living Room.

Ciocca Cleaning & Restoration has offered Area Rug cleaning services for many years. We have a designated area for cleaning of rugs in our shop for anyone choosing to drop them off. This area allows for inspection of rugs to identify any spots that need addressed prior cleaning, a cleaning surface for cleaning, and space for drying. All Area Rugs cleaned in our shop will also be packaged up and labeled when dry, for pickup.

Of course Ciocca Cleaning & Restoration can also clean your area rugs, at the same time your carpets are being cleaned as well!

Call us today to schedule your cleaning!
